WWW.OPTIPARTS.COM

Windesign is an expanding brand which has a proven hardware range for Laser®, ILCA® and 420, a large collection of tiller extensions, dinghy trolleys, bags and clothing collection; The MIRA series.

The extensive range of products is exported to more than 80 countries around the world. The name Windesign® is a registered trademark.

Windesign was founded in 2000 as brand for hardware, clothing and accessories for all dinghy sailors. In 2016 we started thinking about a full clothing collection called the "MIRA Series" In 2017 we were able to supply the first "MIRA Series" items and due to success, we have been able to develop and expand to a full clothing collection for junior and adult.

Our MIRA Series are designed with the highest quality fabrics to provide high end waterproofness, durability and flexibility. Comfortable dinghy sailing gear for all dinghy sailors.

Laser® is a registered trademark of Velum limited.
 ILCA® is a registered trademark owned by Laser Class Association Inc.

Optiparts Marine Equipment b.v. is fully independent of Velum Limited and Laser Class Association Inc.

BLACKGOLD RACING SPARS

EX900	BLACKGOLD Power mast. Including rigging pack
EX901	BLACKGOLD Medium mast. Including rigging pack
EX902	BLACKGOLD Lite mast. Including rigging pack

The Blackgold collection contains three types of spars. The regular BLACKGOLD Power mast which is suitable for sailors above 45 kg, the 12% more flexible BLACKGOLD Medium mast and the most flexible BLACKGOLD Lite mast which is 20% more flexible compared to the BLACKGOLD Power. All three are 45 microns black hard anodized 7075 masts and come with high grade nylon fittings, hard anodized cleats and a complete rigging pack.

SPRITS

EX959	BLACKGOLD Lite 26,6 mm sprit
EX960	BLACKGOLD Medium 27 mm sprit

We offer a choice of two black anodized 7075 sprits. All with black end fittings and sprit chafe guard. The 26,6 mm BLACKGOLD Lite sprit is 20% more flexible and a lot lighter than the 27 mm BLACKGOLD Medium sprit.

BOOMS

EX940	BLACKGOLD Medium 40 mm boom complete
EX945	BLACKGOLD Power 45 mm boom complete
EX955	BLACKMAX 55 mm boom complete

Three types of booms are available. All BLACKGOLD™ booms are made of high grade, black anodized tube, fitted with captive eye straps, black nylon in- and outboard end fittings, nylon outhaul cleat, 4 mm Dyneema outhaul, 3 mm Dyneema bridle and vang and a fitted outhaul trim gauge.

BLACKGOLD™ Medium

A stiff 40 mm lightweight boom which is suitable for the majority of sailors.

BLACKGOLD™ Power

A stiffer 45 mm boom to keep more tension on the leech for the heavier sailor. The smaller bridle gives more space when tacking.

BLACKMAX™

This ultra stiff and yet lightweight 55 mm boom can be used without a bridle.

This enables the larger sailor to land further forward when tacking.

RIGGING PACK

EX13591	Rigging pack as with all BLACKGOLD sets and spars
---------	---

This set contains a halyard system with Dyneema halyard line, Harken hook-in block, Windesign low friction ring, PRO wind indicator, top pins, sprit halyard handle and mast sleeve.

SETS

EX970	BLACKGOLD LITE set < 35 kg	(902 / 940 / 959 / 13591)
EX975	BLACKGOLD MEDIUM set 30-40 kg	(901 / 940 / 960 / 13591)
EX978	BLACKGOLD POWER set 35-45 kg	(900 / 945 / 960 / 13591)
EX980	BLACKMAX set > 45 kg	(900 / 955 / 960 / 13591)

A combination of the BLACKGOLD spars, booms and sprits creates our four available spar sets, which are suitable for all types of sailors.

SLEEVE SPARS

EX1012	Sleeve mast*
EX1020	School boom 40 mm*
EX1040	School sprit 25 mm*
EX1052	Sleeve set (EX1012 / 1020 / 1040)*

The sleeve mast has no eyes for fixing the head of the sail and can be used with sleeve sail EX1061. The mast slides in the sleeve pocket of the sail and the sail has a loose foot. This eliminates the need of any sail ties. A mast extender (EX10122) can be used to create more headspace.

EX1053	Fixed sleeve set (mast, boom and EX1040 sprit)*
--------	---

It has never been so easy to store your spars after use. This sleeve mast set is supplied with a fixed gooseneck. The boom can be used without a bridle to create more headspace. The set comes with mast, boom and EX1040 sprit. Perfect in combination with the EX1061 colored sleeve pocket sail.

* Not allowed for racing

SCHOOL SPARS

The **school spars** are made of high quality aluminium tube, fitted with a stainless steel halyard block, halyard cleat and downhaul cleat, a nylon pin stop and two stainless steel eyes for fixing the head of the sail. The sprit has no chafe protection tube. * Not allowed for racing

EX1010	School mast*
EX1030	School boom 32 mm*
EX1040	School sprit 25 mm*
EX1050	School set (EX1010 / 1030 / 1040)*

UPGRADED SCHOOL SPARS

The **upgraded school spars** are made of high quality aluminium tube and fitted with a stainless steel halyard block, aluminium Clamcleats, a nylon pin stop and two stainless steel eyes for fixing the head of the sail. The upgraded sprit has 15 cm anti chafe protection tubing. * Not allowed for racing

EX1011	Upgraded school mast*
EX1030	School boom 32 mm*
EX1042	Upgraded school sprit 25 mm*
EX1051	Upgraded school set (EX1011 / 1030 / 1042)*
EX1056	Rigging pack with halyard, control lines and bridle with ring

SILVER REGATTA SPARS

The **silver regatta spars** are less stiff than Blackgold and ideal for light-weight sailors who just started racing. The silver mast, boom and sprit are made of high quality aluminium tube, fitted with aluminium halyard and downhaul Clamcleats. The lightweight 40 mm silver boom is much stiffer than the 32 mm school boom and will allow the sailor to put more tension on the leech. The silver sprit has 15 cm anti chafe protection tubing. Both mast and set come with rigging pack, containing all necessary lines, wind indicator, top pins and halyard with hook-in block.

EX1005	Silver regatta mast
EX1022	Silver regatta boom 40 mm
EX1041	Silver regatta sprit 27 mm
EX1048	Silver regatta set (EX1005 / 1022 / 1041)
EX13593	Rigging pack with halyard, wind indicator and top pins

EX1056

EX13593

SAILS

EX1057A	Windesign Durarace LITE sail < 45 kg, 99 lbs
EX1058A	Windesign Durarace POWER sail > 45 kg, 99 lbs

Our Durarace sails are perfect for practice and learning to race. Built for durability and speed! Made of 4.18 oz Challenge sailcloth. A bit heavier but much more durable than sailcloth used in most racing sails.

EX1059	Club sail
EX1060	School sail

These sails are made of strong 3.8 oz high quality 100% dacron sailcloth, have six panels with nickel plated eyes and heavily reinforced corners. Complete with battens and long sail bag for storage of sail and spars. The EX1059 club sail comes with window, class logo and I.O.D.A. button, according to the I.O.D.A. class rules.

The EX1060 comes without window, logo and button.

EX1061	Sleeve pocket sail colored
EX1061W	Sleeve pocket sail white
EX1061WR	Sleeve pocket sail white with reef eye

These sleeve pocket sails are ideal for sailing schools. The mast slides in a sleeve pocket while the sail is loose footed on the boom. Made of strong 3.8 oz sailcloth. They have five panels without sailbattens, 4 heavily reinforced corners and webbing loops for the boom. The EX1061 and EX1061W should be used with sleeve school set EX1052. The EX1061WR should be used with the fixed sleeve school set EX1053. When using the reef eye, the boom goes up and gives more headspace for the sailor.

TRISAILS

EX1061M	Trisail only
EX1064	Trisail set

This sail is half the size of a normal Optimist sail. Very easy to handle. Now even the smallest helmsman can continue sailing in heavy wind. Supplied as set with sleeve mast, 40 cm mast extender (EX10122) and mini boom with boom bumper head protector. The Trisail can also be used with a regular sleeve mast and boom with the addition of a 40 cm mast extender.

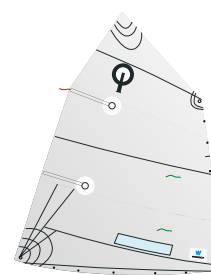

ACCESSORIES

EX10121	10 cm mast extender for EX1012*
EX10121S	20 cm mast extender for EX1012*
EX10122	40 cm mast extender for EX1012*

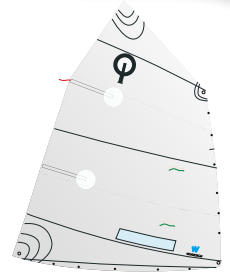

Optimist mast extenders can be used with the Optimist sleeve mast. The Optimist mast extenders are available as separate items for the Sleeve School mast. These mast extenders can be dropped in the top of the Optimist mast and moves the sail up to create more space in the cockpit.

EX1446	Boom bumper head protector
--------	----------------------------

* Not allowed for racing

WOODEN SCHOOL FOILS

EX11003	Wooden school rudderblade without fittings*
EX11053	Wooden school rudderblade with fittings**
EX11103	Wooden school daggerboard
EX11143	Wooden school foil set without fittings*
EX11153	Wooden school foil set with fittings**

These wooden foils are made of high grade marine plywood. The rudderblade has a thickness of 13 mm and daggerboard 15 mm. These are the most affordable foils available, for school and recreation only.

GRP SCHOOL FOILS

EX11000	GRP school rudderblade without fittings*
EX11050	GRP school rudderblade with fittings**
EX11100	GRP school daggerboard
EX11140	GRP school foil set without fittings*
EX11150	GRP school foil set with fittings**

These GRP school foils are for training and school use only.

ONE DESIGN RACING FOILS

EX11005	One design rudderblade without fittings*
EX11055	One design rudderblade with fittings**
EX11105	One design daggerboard
EX11145	One design foil set without fittings*
EX11155	One design foil set with fittings**

These fiberglass / foam Optimist foils are designed to be the most durable racing foils. The daggerboards are fitted with durable teak wood battens.

ONE DESIGN RACING FOILS PRO

EX11006	One design pro rudderblade without fittings*
EX11056	One design pro rudderblade with fittings**
EX11106	One design pro daggerboard
EX11146	One design pro foil set without fittings*
EX11156	One design pro foil set with fittings**

These high-end fiberglass / foam racing Optimist foils with sanded pro finish are manufactured in high quality CNC designed moulds to be the most ultimate racing foils.

*All rudderblades can be used with Optiparts tillers, extensions and rudder fittings.

** Tillers (with extension) have to be ordered separately.

RUDDER FITTINGS

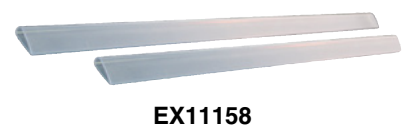

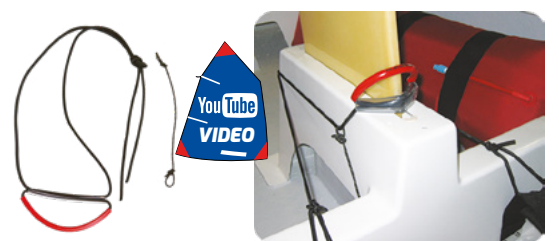

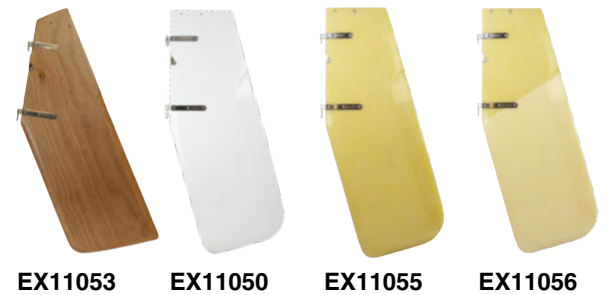

EX1150	Rudder fitting set (EX1160S / EX1160L / EX1170 / EX1180)
EX1155	Bolts and self-locking nuts. Set of 12
EX1160	Rudder pintle set (EX1160S / EX1160L)
EX1160S	Rudder pintle short
EX1160L	Rudder pintle long
EX1170	Set transom gudgeons with backing plates
EX1170P	Set transom fittings with 8mm pin
EX1180	Rudder retaining clip

These stainless steel rudder fittings are available as a set or separate.

FOIL ACCESSORIES

EX1113	Daggerboard bungy with handle
A 6 mm shockcord with a red PVC handle to retain the daggerboard in its case. The handle keeps your daggerboard in place and your hiking straps up too. Comes in a complete set to keep the shockcord in place.	
EX11158	Foil protector set

Clear plastic profiles which fit over the trailing edge of the daggerboard and rudder to protect them from any damage when in storage or transportation.

TILLERS

EX1120	Aluminium tiller. Silver anodized
EX1122	Aluminium tiller. Black anodized

Suitable for all sizes of Optimist rudderblades. Each tiller is supplied with bolts and nuts to mount it to a rudderblade.

TILLER EXTENSIONS

EX1139	16 mm Deluxe tiller extension, super smooth
--------	---

Black anodized aluminium tiller extension with a releasable rubber joint with rope core and a black end knob which makes it super smooth. Designed to the maximum allowed length when used with our regular tillers (EX1120 and EX1122).

EX1140	16 mm Deluxe tiller extension with black foam grip
EX1141	16 mm Deluxe tiller extension with colored foam grip

Black anodized 60 cm aluminium tiller extensions with a releasable rubber joint with rope core and foam grip.

EX1142	16 mm Standard tiller extension with golf grip
--------	--

Silver anodized 60 cm aluminium tiller extension with a fixed rubber joint and golf grip.

EX1145BKRD	Tiller extension 20 mm X-gripped, "Doppio"
EX1145BK	Tiller extension 20 mm X-gripped, black
EX1145BL	Tiller extension 20 mm X-gripped, blue
EX1145GR	Tiller extension 20 mm X-gripped, green
EX1145RD	Tiller extension 20 mm X-gripped, red
EX1145Y	Tiller extension 20 mm X-gripped, yellow

Give your Optimist some color with the colored X-gripped tiller extensions. A range of 20 mm aluminium tiller extensions, fitted with X-gripped heat shrinkable tubing and a releasable rubber joint with rope core. Available in six different colors. One special color called "Doppio". It is a black grip with a raised red X-pattern to create extra grip!

SETS

EX1125	Deluxe tiller and extension
--------	-----------------------------

Black anodized aluminium tiller (EX1122) with 60 cm Deluxe aluminium tiller extension (EX1140). Fitted with a releasable rubber joint with rope core and foam grip.

EX1127	51 cm Deluxe tiller with 70 cm extension 20 mm X-gripped
--------	--

Black anodized aluminium tiller with 70 cm X-gripped extension. Offers a longer reach for taller sailors. Together with the shorter tiller it's designed to the maximum allowed length. Fitted with releasable rubber joint with rope core.

EX1130	Standard tiller and extension
--------	-------------------------------

Silver anodized aluminium tiller (EX1120) with 60 cm standard aluminium tiller extension (EX1142). Fitted with a fixed rubber joint and golf grip.

DOPPIO
RAISED RED X-PATTERN TO CREATE EXTRA GRIP

**X-GRIPPED
COLOR SERIES**

HEAVY DUTY BUOYANCY BAGS

EX1212	Buoyancy bag 48 L, normal valve, color yellow
EX1213	Buoyancy bag 48 L, normal valve, color white
EX1215	Buoyancy bag 43 L, normal valve, color grey
EX1215L	Buoyancy bag 43 L, normal valve, color grey with logo
EX1216	Buoyancy bag 43 L, twist lock tube valve, color red
EX1217	Buoyancy bag 48 L, twist lock tube valve, color blue
EX1218	Buoyancy bag 48 L, twist lock tube valve, color yellow
EX1219	Buoyancy bag 48 L, twist lock tube valve, color red
EX1222	Buoyancy bag 48 L, twist lock tube valve, color orange
EX1223	Buoyancy bag 48 L, double coloured grey and blue

Optiparts heavy duty buoyancy bags, according to IOD'95 rules. These bags are made of polyurethane coated nylon and are about half the weight and significantly stronger than bags made of PVC or PVC coated nylon. Some bags are available with a twist lock tube valve. This valve is attached to a piece of tubing. With this valve the bag can easily and quickly be inflated and deflated. 48 liter bags are slightly heavier than 43 liter bags but after a capsizing there is less water in the boat.

43 liter sizes: 27 x 88 cm inflated, 41 x 100 cm deflated
48 liter sizes: 29 x 92 cm inflated, 44 x 98 cm deflated

PVC BUOYANCY BAG

EX1220	Buoyancy bag 43 L, normal valve, color white
--------	--

Made of high quality flexible PVC cloth. Suitable for all non IOD'95 Optimists and other classes. Can be used inside GRP tanks or with straps.
Size inflated 24 cm x 92 cm.

HIKING STRAPS, WEBBING AND MOUNTING PLATES

EX1450	Padded hiking straps
EX1450P	Pro padded hiking straps

Get a better grip and feel with your boat, with our extra stiff pro padded hiking straps. Same style as our EX1450 strap but with non slip layer underneath and hard foam inside. Both padded straps are made of strong polyester webbing, covered with wear resistant cloth, filled with foam plate material which does not absorb water. Strong stitched through construction. Aft end a pressed ring and sewn flat to prevent twisting

- loops for shockcord to pull up the front for easy access
- front ends are open for mounting with plate or rope

EX1451	Non padded hiking straps
--------	--------------------------

Made of strong polyester webbing which has a good UV protection.

EX1453-10	Stainless steel mounting plate. Set of 10
EX14531-10	Nylon mounting plate, black. Set of 10
EX14532-10	Nylon mounting plate, red. Set of 10
EX14533-10	Nylon mounting plate, blue. Set of 10

Stainless steel and nylon plates with two holes for mounting hiking straps and buoyancy bags. Thickness: stainless steel 2 mm, nylon 4.5 mm.

EX1462	Webbing roll, blue. 50 meter
EX1464	Webbing roll, black. 50 meter
EX1466	Webbing roll, white. 50 meter
EX1468	Webbing roll, grey. 50 meter

Polyester buoyancy bag webbing which has a good UV protection. 1.5 mm thick, 50 mm wide.

EX1462

EX1464

EX1466

EX1468

PRADDEL PADDLE / WHISTLE / SPONGE

EX1440	Praddel paddle, color orange
EX1440G	Praddel paddle, color grey

Single handed paddle. Can be used with one arm only while steering with the other arm. Weighs only 215 grams.

EX1441	Pea-less plastic whistle with lanyard and clip
EX1443	Plastic hook for securing praddel, bailer or daggerboard
EX1445	Sponge stick

This sponge stick grows from a compressed stick to a full sized sponge. High quality, biodegradable and environmentally friendly cellulose sponge.

EX1235	Rubber transom plug for max 45 mm transom drains
--------	--

BAILERS

EX1442R	Handbailer 3.5 liter, color red
EX1442G	Handbailer 3.5 liter, color green
EX1442GY	Handbailer 3.5 liter, color grey

The traditional blow molded handbailer which fits perfectly to the corners of the IOD'95 hull. Contents: 3.5 liter. Red and green for port and starboard. Length 21 cm, width 12 cm

EX1444	Handbailer small 1 liter, color orange
--------	--

Small handbailer, for sailing schools and other dinghies. Length 18 cm, width 11 cm

EX1448	Handbailer 4.2 liter, color orange
EX1449	Handbailer 4.2 liter, color grey

Large, lightweight and durable handbailers. The wide ergonomic base creates more bailing capacity with each stroke, the curved bottom to follow the bailing motion and a triangular top so you don't get stuck behind the gunwale. High handle with end stop to prevent slipping out of your hand, with integrated shockcord fastening. Reinforced wear areas, rounded front lip and stackable for transportation. Length 24 cm, width 17 cm

WATERPROOF STORAGE

EX3048	Lunch container 3 L
EX3049	Lunch container 6 L

Waterproof lunch container, stores your lunch and valuables dry. Keep the container in your own boat or in the coach boat. With a hole in the lid to attach a line. 2 sizes: 3 liter, 17 cm high and 6 liter 26 cm high.

EX1237	Hatch cover 100 mm. Cut out diameter: 108 mm
--------	--

OPTI HIKING BENCH

EX1500	Opti Hiking bench
--------	-------------------

Fully detachable hiking bench with adjustable hiking strap. This is the ultimate solution for hiking fitness while you are watching TV, reading a book or playing a video game. This lightweight, super strong hiking bench is made of the same materials as our Optiparts trolley and is just as easy to assemble. Perfect for that extra training session. Only 3.7kg (8 lbs).

MASTSTEP

EX1202	Adjustable maststep with round cup
EX1204	Round cup only
EX1206	Base plate only
EX1207	8mm nut, comes with EX12071 spring lock keeper
EX12071	Spring lock keeper
EX12072	PTFE mast disk, 1mm thick

The Optiparts maststep has an oval cup, which allows the mast to tilt forward when going downwind. Friction between mast and maststep is reduced to a minimum. Different mast rakes can easily be repeated using the scale on the base. Separately a mast step spring lock can be purchased. The stainless steel spring prevents the nut from turning accidentally.

MAST LOCK

EX1203	Mast lock
--------	-----------

Stainless steel lock to secure your mast from coming out of its step when the boat is capsized. Prevents costly foredeck damage. This lock has a rubber insert and should be clamped around the mast just under the deck. We suggest to use the collar in addition to the rope locking system to create double security. Supplied with a line to attach it to the maststep.

DECK COLLARS

EX1208	Standard nylon deck collar, black
EX1209	Low friction Delrin deck collar, white
EX1210	Deck collar with mast sleeve, grey
EX12101	Deck collar only, grey
EX1211	Mast sleeve only, grey (as with Blackgold masts)

Optiparts offers three types of deck collars. A standard nylon mast collar to be fitted in a 53 mm deck-hole, and two racing deck collars with oval inner diameter which allow maximum fore/aft play and minimum side play. The tapered inner diameter allows the mast to be raked.

Four countersunk mounting holes to be fitted in a 57 mm deck-hole. EX1210 has a separate sleeve which is fitted around the mast at deck level and protects the mast from wearing.

BASEPLATES, SHACKLES AND SPRINGS

EX1301	4 mm flat shackle
EX1302	5 mm flat shackle
EX1304	Stainless steel spring to mount under ratchet blocks
EX1305	Flexible 40mm PVC stand-up to mount under ratchet blocks
EX1410	Swivel base plate with 5 mm holes
EX1412	Fixed base plate with 5 mm holes

For mainsheet and hiking straps

EX1414	Small eye with 4 mm holes
1 mm thick, 10 x 9 mm opening, hole distance 24 mm	
EX1415	Large eye with 5 mm holes
2 mm thick, 15 x 13 mm opening, hole distance 36 mm

EX1281	Inboard end for 55 mm racing boom (EX955)
EX1283	Outboard end for 55 mm racing boom (EX955)
EX1255	Heel plug, low friction Delrin, for racing masts
EX1256	High heel plug, low friction Delrin, for racing masts
EX1257	Heel plug, heavy duty, for silver and school masts
EX1260	Top cap for school masts
EX1270	Sprit ends for 25 mm standard sprits. Set of 2
EX1271	Sprit ends for 27 mm Blackgold and silver sprits. Set of 2
EX1272	Sprit ends for 29 mm Blackmax sprits. Set of 2
EX1290	Mast flotation plugs, made of natural cork. Set of 3

All boom end fittings are made of high quality glass fibre filled nylon and have a firm grip around the mast. This ensures that mast and boom turn together. When refitting an old mast with a high heel plug first make sure the total mast length will not exceed 2350 mm. The sizes above are outside tube diameters.

WIND INDICATORS

We supply a standard wind indicator with red PVC flag on a wire frame, as used on many Optimists and other dinghies. More popular is our low friction wind indicator. It has a strong vane arm which is accurately balanced and performs amazing sensitive. The vane arm is attached to the needle with a positive locking system which prevents losing the vane arm.

EX1240	Standard wind indicator
EX1240-10	Standard wind indicator. Set of 10
Not allowed for Optimist class racing: C.R. 3.5.2.6	
EX1243	Wind indicator Windesign PRO, red
EX1243-10	Wind indicator Windesign PRO, red. Set of 10
EX1243BL	Wind indicator Windesign PRO, blue
EX1243BL-10	Wind indicator Windesign PRO, blue. Set of 10

With blunt point, allowed for Optimist class racing.

EX1243V-10	Vane only, red. Set of 10
EX1243VBL-10	Vane only, blue. Set of 10
EX1245	Wind indicator clip for school masts
EX1335	Set of small nylon top pins

Simplified top pins, where sailties are knotted outside of the mast for easy adjustment.

EX1338	Set of nylon top pins, as supplied with racing masts
EX1338A	Set of aluminium top pins, long lasting, gold anodized

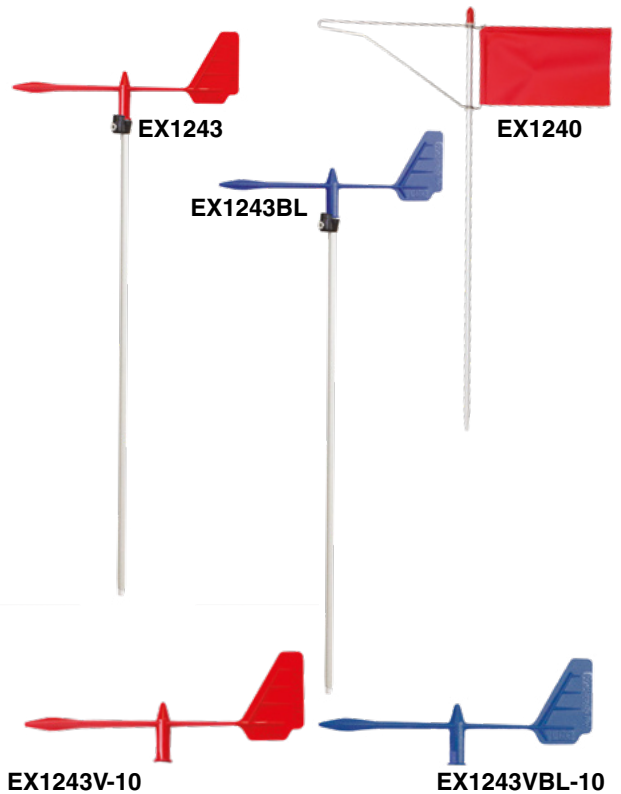

BOOM ACCESSORIES

EX1360	3 mm Dyneema boom bridle with stainless steel ring
EX1362	15 mm stainless steel ring
EX1362-10	15 mm stainless steel ring. Set of 10
EX1371	Stainless steel safety snap shackle. 43 mm, 16 gr. Not available in France.
EX1371L	Stainless steel snap shackle (EX1371) with line loop. Not available in France.
EX1372	Stainless steel trigger safety snap shackle. 49 mm, 20 gr
EX1373	Protest flag

Little pouch with a cord at the top to tie it to the boom and a velcro closure at the bottom. Pull the bottom cord and the protest flag comes out.

CLEATS

EX1380	Hard anodized aluminium Clamcleat (CL211 MK2) for downhaul on Blackgold masts
EX1381	Silver anodized aluminium Clamcleat (CL211 MK2) for downhaul and halyard on silver masts
EX1399	Hard anodized aluminium Clamcleat (CL211 MK2) with becket for halyard on Blackgold masts
EX1402	Stainless steel V-cleat for school masts
EX1405B	Blue nylon V-cleat for silver and school booms
EX1405G	Grey nylon V-cleat for Blackgold booms

SAIL ACCESSORIES

EX1416	Untapered sail batten, with plastic end caps, 40.5 cm	
EX1417S	Tapered sail batten, 45.5 cm, for top batten, with hole	
EX1417L	Tapered sail batten, 54.5 cm, for bottom batten, with hole	
EX1418	Optimist class logo, blue. Set of two	
EX1419RD	Digital sail number, red, 23.5 cm*	=order per piece=
EX1419BK	Digital sail number, black, 23.5 cm*	=order per piece=
EX1419BL	Digital sail number, blue, 23.5 cm*	=order per piece=

Cut to make any number or letter.

* Digitals are not allowed for use in official Optimist Class events.

EX1420BK...	Sail number, black, 23.5 cm	=order per piece=
EX1420BL...	Sail number, blue, 23.5 cm	=order per piece=
EX1420G...	Sail number, grey, 23.5 cm	=order per piece=
EX1420RD...	Sail number, red, 23.5 cm	=order per piece=

Specify number or letter when ordering

EX1430	Telltales
--------	-----------

A set of 16 telltales (8 red and 8 green) in resealable display packing with instruction manual. Supplied with adhesive discs to fix the telltales to the sail.

HULL PROTECTORS

EX1065	Bow bumper
--------	------------

Foam tubing covered by heavy duty polyester cloth. This fender has a snug fit around the bow of the Optimist. Ideal for sailing schools. With grommet in the middle to pass the painter.

EX1066	Corner protectors
--------	-------------------

Heavy duty rubber corner protectors with self adhesive backing. These can be used on bow only or on all 4 corners. Special preshaped rubber profile. This is not a flat piece of thin rubber! Set of 2 pieces.

EX1118	Protection pack
--------	-----------------

A complete protection package for the Optimist. Contains self adhesive PTFE protection for maststep, outhaul, daggerboard, sprit, rudder, bailer and boat corners. Also contains 5 PTFE mast disks and rubber daggerboard slot inserts.

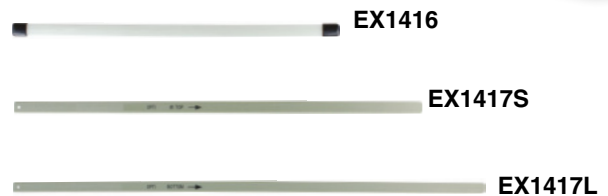

EX1117	Daggerboard protection kit
--------	----------------------------

A complete kit for protecting your valuable daggerboard. Contains 4 rubber inserts, glue, sandpaper and 4 self adhesive glide strips (300 x 18 x 1.0 mm). These strips can be stuck to the top and the bottom of the case and minimize play and friction between the daggerboard and its case.

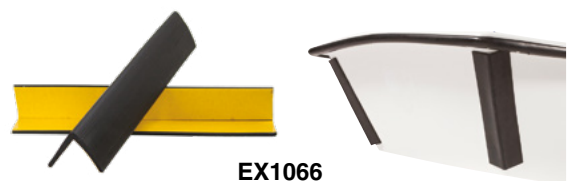

EX11171	Glide tape roll 8 meter, 18mm wide
---------	------------------------------------

EX1116	Rubber slot insert
--------	--------------------

EX1116-10	Rudder slot insert. Set of 10
-----------	-------------------------------

MAINSHEET BLOCKS

EX1295	57 mm Harken carbo ratchet block
EX1296	57 mm Harken carbo ratchet block with 2-way link
EX12961	2-way link, can be used on the EX1295 and the EX1299

Harken 57 mm ball bearing carbo ratchet blocks have machined aluminium sheaves with 8 facets to hold the line securely. Weighs only 85 grams.

EX1299	57 mm ball bearing ratchet block
EX1306	29 mm Harken single carbo block
EX1308	40 mm Harken single carbo block
EX1309	40 mm Harken carbo block with eyelet and spring
EX1314	Harken mainsheet extender. Not available in France.

40 mm Harken single block spliced with Dyneema to a safety snap shackle.

EX13141	Spliced replacement line for EX1314 mainsheet extender
EX1317	Windesign mainsheet extender. Not available in France.

38 mm Windesign low friction ring spliced with Dyneema to a safety snap shackle. An extra loop is added below the ring for an easy switch between 2:1 and 3:1 mainsheet.

EX1319	40 / 29 mm Harken block combination
--------	-------------------------------------

The perfect solution for creating a 4:1 mainsheet.

EX1321	40 / 29 mm Harken block combination with safety snap
--------	--

40/29 mm block combination spliced with Dyneema to a safety snap shackle.

EX1315	38 mm ball bearing block
EX1316	38 mm ball bearing block with becket

Ball bearing blocks with stainless steel cheeks and 38 mm sheaves for lines up to 10 mm.

EX1318	34 mm plain bearing block
EX1320	34 mm plain bearing block with becket

Plain bearing blocks with stainless steel cheeks and 34 mm sheaves for lines up to 10 mm.

EX1325	34 mm plain bearing fiddle block
EX1326	34 / 20 mm plain bearing fiddle block
EX1327	34 / 20 mm plain bearing fiddle block with EX1372 snap
EX1328	34 mm plain bearing block

Plain bearing blocks with nylon cheeks and acetal sheaves for lines up to 8 mm. Lightweight, very strong and affordable. These blocks are designed for Optimists and other small dinghies and can be attached with ropes, webbing and shackles. The cheeks can be opened so the blocks can be attached direct on existing deck eyes.

BLOCKS AND HALYARDS

EX1330	22 mm plain bearing halyard block as used on school masts
EX1331	22 mm plain bearing halyard block with becket
EX1332	19 mm plain bearing halyard block as used on silver masts
EX1334	16 mm Harken ball bearing micro block
EX1340	Plain bearing hook-in block as used on silver masts
EX1342	Plain bearing halyard as used on silver masts
EX1344	18 mm Harken ball bearing Fly-Soft block
EX1345	29 mm Harken ball bearing Ti-Lite block
EX1348	Halyard system with low friction ring

System as used on all Blackgold masts from 2017. The combination of Harken hook-in block, Dyneema spliced halyard line and Windesign low friction ring creates the most advanced halyard system on the market.

EX1349	Halyard line with spliced on low friction ring
EX1350	Halyard line with spliced 29 mm Harken Ti-Lite block
EX1351H	Harken ball bearing hook-in block

Used on Blackgold racing masts. Due to the curved saddle the block rests against the mast in a fixed position which prevents mast wear and creates a halyard system with less friction.

EX1352	Harken halyard system
Complete with Harken hook-in block and 29 mm Ti-Lite block with 3 mm low stretch Dyneema with spliced loops.	
EX1353	Halyard line with spliced loops as used on EX1352

SHEETS, LINES, PAINTER AND MAINSHEET SYSTEMS

EX1370	Pro Line Optimist upgrade package
High performance outhaul, vang and halyard system, consists of a 3.5 mm HT Polyester outhaul for excellent grip in the cleat, a spliced Technora®/Dyneema® halyard with low friction ring and a 3 mm Dyneema® vang with 5 mm Technora®/Dyneema® part.	

EX1374	6 mm floating painter 8.1 meter with UV treatment
EX1377	8 mm mainsheet 6 meter 16 plait polypropylene
EX1378	7 mm DB-Racing mainsheet, 7.5 meter
Non-tangling double braided mainsheet with a light high stretch multi-filament polypropylene core and a braided polyester cover which leaves the outer to be the load bearer. Enough length for a 4:1 mainsheet.	

EX1379	9 to 6.5 mm double tapered mainsheet
This Optimist mainsheet is tapered and made of abrasion resistant PES material. Tapered from 9 to 6.5 mm. Thick and soft where it touches your hand. Thin and smooth elsewhere for less friction. Tapered on both ends. Long enough to create a 4:1 mainsheet with 2 boom blocks.	

EX1379P	8 to 6 mm pro line double tapered mainsheet
The combination of Black Technora, Dyneema, Polyester and Cordura creates the most advanced Optimist mainsheet available. The mainsheet has extremely good wear resistance characteristics. It has a total length of 7.4 meter and is double tapered from 8 to 6 mm.	

EX1375	School Optimist mainsheet system
6 meter, 8 mm mainsheet, 3 shackles, 1 spring and 3 plain bearing blocks. (3 x 1302 / 1304 / 2 x 1318 / 1320 / 1377)	
EX1376	Racing Optimist mainsheet system
6 meter, 8 mm mainsheet, 2 shackles, 1 snap, 1 spring, 2 ball bearing blocks and 1 ratchet block. (2 x 1302 / 1304 / 1372 / 1315 / 1316 / 1299 / 1377)	

EX13761	Pro Racing Optimist mainsheet system
Double tapered mainsheet, 1 shackle, 1 spring, 1 ball bearing block, mainsheet extender and 1 ratchet block. (1379 / 1296 / 1302 / 1304 / 1308 / 1314)	

TROLLEY / DOLLY

EX1076 Optiparts trolley / dolly for Optimist

EX1076B Optiparts trolley / dolly with belt

Lightweight aluminium trolley with stainless steel axles and solid hull supports. Supplied with Bow wow which is made of recycled environmental friendly plastic, a unique system to lock the bow to the trolley with one quick and simple movement. Prevents the hull from sliding off on steep launch ramps. The trolley has been designed to be the most functional available. Spring locking quick release of all parts allow the trolley to be disassembled in a matter of seconds for storage and travel. The frame has welded joints and is anodized to prevent corrosion. The Optiparts trolley is supplied with 8 mm stainless steel push button wheel locks which are mounted inside the axle. The EX1076B has the same design but with belt. Your Optimist slides easy from the belt when launching.

EX10781 Smallstar puncture and temperature proof wheel, 26 cm

EX10782 Durastar-lite puncture and temperature proof wheel, 37 cm

EX10785BL Durastar puncture and temperature proof wheel, 37 cm

EX10786 Optiflex-lite puncture proof wheel, 37 cm

All wheels are suitable for 25 (1") x 75 mm axles.

EX1077 Bow wow replacement kit, including PVC handles

Bow wow made of recycled environmental friendly plastic.

EX10783 25 mm bushing for EX10786

EX10788 20 mm bushing for EX10786

EX10790 Stainless steel spring clip for securing wheels

EX10791 Galvanized spring clip for securing wheels

EX10792 Round button spring locking system

EX10793 Heel plate including rivets

EX10794 PVC handles

EX10796 Trolley padding kit

Set of foam tubing with two 600D nylon protectors with velcro fastener. It protects the hull and makes the surface slippery for easy launching. The padding runs over the full width of the trolley, so the middle is protected when turning the hull upside down.

EX10797 Stainless steel 25 mm (1") axle with plastic plug

EX10798 Push button wheel lock stainless steel 8 mm

Enlarge 5 mm hole to 8 mm to use this lock in older trolleys

EX10799R Rubber for side support

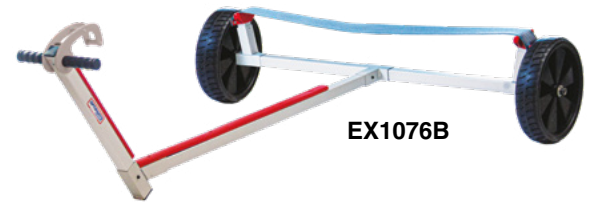

EX10799P Protective tube and Tie-wrap

Pull and tighten the Tie-wrap through the hull support eye.

This tube protects the hull against scratches.

COVERS

EX1080 Top cover tented with battens*

This cover has two sailbattens integrated in the top panel. The top panel will be tented when the webbing straps connected to both ends of each batten are tensioned. Made of grey 600D PVC ripstop polyester. The padded panels on the front, back and sides fold around the corners and protect your hull.

EX1081 Top cover Breathable*

Durable cover made of Moistureguard 2000, a heavy duty 900D polyester with a polyurethane membrane which has excellent breathability and is waterresistant. Wide skirts around the edge of the hull for good protection. Fast and easy to install with two adjustable straps.

EX1082 Top cover Economy*

Affordable cover made of strong and flexible solution dyed PVC coated polyester. 100% waterresistant but not breathable. Wide skirts around the edge of the hull for good protection. Fast and easy to install with two adjustable straps. Solution dyed polyester has much better color fastness and UV resistance than cheaper pigment dyed polyester.

EX1091 Bottom cover Breathable

Durable bottom cover made of Moistureguard 2000. Quick and easy to install with a 6 mm shockcord in the skirt and 2 adjustable straps. The cover has 3 wide strips of thick foam padding to protect the hull.

EX1091S Bottom cover Economy

Affordable bottom cover made of 600D solution dyed polyester. Quick and easy to install with an adjusting line in the skirt and 2 adjustable straps. Not breathable, only for traveling. For outside storage use EX1091.

EX1095 Bottom cover fully padded

This bottom cover provides the best possible protection during travel. Made of 420 PU outside, high quality 190T innerlining inside and closed cell foam in between (only for traveling). The material used for this cover is not UV resistant. This cover is not suitable for outside storage, for outside storage use EX1091.

* To avoid damage, we advise to remove top covers during transport

ROOF RACK

EX1446 Padded roof rack cover

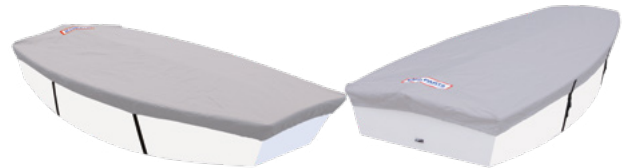

Heavy duty foam tubing covered with nylon cloth with velcro fastener. Protects your boat from being damaged when transported on a roof rack. Length 50 cm. Sold per piece.

STORAGE BAGS

EX1062 Sail bag

250 cm long sail bag of red nylon cloth to protect your sail when rolled around the boom.

EX1063 Rig travel bag

Heavy duty bag from 600D PVC coated polyester with two compartments for sail, mast, boom and sprit. With zip closure, name tag pocket and detachable and adjustable carrying strap. Can be bundled with 2 straps to create a compact package. Built to fit a thin-walled PVC irrigation pipe, to prevent the sail from being crushed.

EX1119 Rudder and daggerboard bag

A 600D nylon bag with 3 compartments for rudder, daggerboard and accessories. The rudder and daggerboard compartments are padded for the best protection. The outside compartment provides enough space for accessories like sheet, mastlock, wind indicator and more. Supplied with shoulder strap and a sailnumber and name tag.

EX1062

EX1063

EX1119

FULLY PADDED RIG TRAVEL BAG

Heavy duty fully padded rig bag from 600D PU coated polyester with three main compartments for mast, boom and sprit. With zip closure over the full length, name tag, two additional luggage pockets and detachable and adjustable carrying strap.

EX1068 Fully padded rig travel bag

BOOKS AND VIDEO

EX1434 Drillbook: the DinghyCoach method (English written)

Over 75 specific exercises organized by category and difficulty to serve as a guideline and inspiration for coaches. Written by Pim Stumpel and Ben Koppelaar and with support of Huub Lambriex they have created tools to help coaches, program-managers and sailors set goals and structurally train to become better sailors.

EX1435 Access card: Dinghycoach Optimist technique video

DinghyCoach Pim Stumpel shares his knowledge in more than 60 minutes of videos where you learn everything about tacking, gybing, starting and all other sailing skills. This video giftcard contains a unique code, which can be activated online. DinghyCoach updates the online videos in case new techniques are discovered!

EX1438 The secrets of Opti coaching

Atila Hodacs reveals 20 years of his coaching experience in this 85 page book. Includes phases of development, how to lead sailors to international level racing, setting up training sessions, how to improve boathandling, strategy and how to minimize mistakes. A must have for every trainer, coach and interested parent.

EX1439 The Optimist Dinghy 1947-2007

A provisional history of the first sixty years of the International Optimist dinghy. Written by Robert Wilkes and Clifford McKay Jr.

GIFT ITEMS AND ACCESSORIES

EX1471 Optimist scale model

Affordable Optimist model, scale 1:15. Complete with spars, sail, foils and 3 buoyancy bags. 16 cm long hull with wooden stand.

EX1472 Optimist mini sail

Optimist mini sail, scale 1:6, 47 cm high. Made of real Dacron with window, sailbattens and class logo. Reinforced corners with eyelets.

EX1475 Opti key ring, blue

EX1476 Opti key ring, green

EX1477 Opti key ring, red

Flexible rubber key ring with Opti class logo. 8 cm high

EX1480 Mast rake measuring tape

It has never been so easy to measure your Optimist mast rake before your training or regatta. Place the special hook in the top-aft of the mast and measure the distance to the edge of the deck.

TILLERS FOR LASER® / ILCA®

652112	120 cm 20 mm X-gripped tiller extension
Supplied with 100 cm x-grip.	
652900	Deluxe tiller
652910	Deluxe tiller with 100 cm tiller extension
652930	Standard tiller

The well-known 32 mm aluminium tiller with Larry Marks end casting. The tiller is available in a deluxe black anodized version and a standard silver anodized version. The deluxe version comes with anti-chafe plate and aluminium Clamcleat.

TILLERS FOR LASER® OR ILCA® & TILLER EXTENSIONS

CARBON T800 PRO TILLER FOR LASER® OR ILCA®

Windesign has developed a high-end extremely stiff racing tiller made of T800 carbon which fits perfect on your Laser® or ILCA®. We are using different wall thicknesses on the inside of the tiller to achieve an ultimate stiffness/weight ratio, we have used the best, stiffest and lightest carbon fibres available, made a recess on top for the stainless steel wear plate and designed two different tiller end castings to achieve the lowest traveler settings for both. This combination of features creates an amazing light feeling when steering the boat. The design went through all different kinds of tests and is believed to be the stiffest, strongest and most lightweight on the market right now! Glossy finish, fitted with aluminium Clamcleat, only 13,5 mm thick and 26,7 mm wide, a total weight of only 335 gram and supplied with releasable rubber joint to attach your existing tiller extension.

- Designed to be ultimate low under the traveler
- Made of high-end extreme stiff T800 carbon fibres
- Smart design to be a lightweight tiller
- End casting set is available for replacement in case of excessive wear

652800	Carbon T800 PRO tiller for ILCA®
652801	Carbon T800 PRO tiller for Laser®
652805	End casting replacement set for ILCA®
652806	End casting replacement set for Laser®

Some products on this page are compatible with Laser® or ILCA® but are not original Laser® or ILCA® products. Laser® is a registered trademark owned by Velum Limited. ILCA® is a registered trademark owned by Laser Class Association Inc.

16MM STANDARD TILLER EXTENSIONS

652406	60 cm standard tiller extension
652407	70 cm standard tiller extension
652408	80 cm standard tiller extension
652409	90 cm standard tiller extension
652410	100 cm standard tiller extension
652411	110 cm standard tiller extension
652412	120 cm standard tiller extension

The standard tiller extension is made of silver anodized 16 mm aluminium tube fitted with a fixed rubber joint and a golf grip handle.

16MM DELUXE TILLER EXTENSIONS

652306	60 cm deluxe tiller extension

652308	80 cm deluxe tiller extension
652309	90 cm deluxe tiller extension
652310	100 cm deluxe tiller extension
652311	110 cm deluxe tiller extension
652312	120 cm deluxe tiller extension

The deluxe tiller extension is made of black anodized 16 mm aluminium tube fitted with a releasable rubber joint and EVA foam grip.

20MM ALUMINIUM X-GRIPPED TILLER EXTENSIONS

652006	60 cm aluminium X-gripped tiller extension
652007	70 cm aluminium X-gripped tiller extension
652008	80 cm aluminium X-gripped tiller extension
652009	90 cm aluminium X-gripped tiller extension
652010	100 cm aluminium X-gripped tiller extension
652011	110 cm aluminium X-gripped tiller extension
652012	120 cm aluminium X-gripped tiller extension

The aluminium X-gripped tiller extension is made of a black anodized 20 mm aluminium tube fitted with X-gripped heat shrinkable tubing. This tiller extension is supplied with a releasable rubber joint with rope core.

16MM CARBON TILLER EXTENSIONS

652206	60 cm carbon tiller extension
652207	70 cm carbon tiller extension
652208	80 cm carbon tiller extension
652209	90 cm carbon tiller extension

The carbon tiller extension is made of a 16 mm braided carbon tube fitted with a releasable rubber joint and EVA foam grip.

20MM CARBON X-GRIPPED TILLER EXTENSIONS

652109	90 cm carbon X-gripped tiller extension
652110	100 cm carbon X-gripped tiller extension
652111	110 cm carbon X-gripped tiller extension
652112	120 cm carbon X-gripped tiller extension
652112BKRD	120 cm carbon X-gripped tiller extension, Doppio
652119	190 cm carbon X-gripped tiller extension
652125	250 cm carbon X-gripped tiller extension

The carbon tiller extension is made of an extra stiff and light 20 mm carbon tube fitted with X-gripped heat shrinkable tubing. This tiller extension is supplied with a releasable rubber joint with rope core.

The 120 cm tiller extension is available in two different colors. One special color called "Doppio". It is a black grip with a raised red X-pattern to create extra grip; double grip!

TILLER ACCESSORIES

652960	16mm golf club grip as used on standard tiller extensions
652961	16mm eva foam grip as used on deluxe tiller extensions
652963	16mm eva foam grip, multicolored
652964Y	20mm hi-tech X-grip heat shrinkable 100 cm long, yellow
652964GR	20mm hi-tech X-grip heat shrinkable 100 cm long, green
652964BL	20mm hi-tech X-grip heat shrinkable 100 cm long, blue
652964RD	20mm hi-tech X-grip heat shrinkable 100 cm long, red
652964BK	20mm hi-tech X-grip heat shrinkable 100 cm long, black
652964BKRD	20mm hi-tech X-grip heat shrinkable 100 cm long, Doppio

X-gripped heat shrinkable tubing. Available in six different colors. One special color called "Doppio". It is a black grip with raised red X-pattern to create extra grip; double grip! Slide the grip over the extension and shrink it with a heat gun.

652965	Clip for 16 mm extensions
652966	Rubber replacement end knob for 20 mm extensions
652998	Saddle for mounting all extensions on 25 to 32 mm tubes
652944	Joint without rope core
652948	Joint with rope core, fixed base
652950	Joint with rope core, releasable base for 16 mm extensions
652955	Joint with rope core, releasable base for 20 mm extensions

The rope core will avoid complete failure should the rubber tear. Mounted with pin which is kept in place by a piece of heat shrinkable tubing. The distance between the mounting hole centers of all joints is 32 mm. The 652955 comes with the pin and heat shrinkable tubing used for all 20 mm tiller extensions.

UPGRADES FOR LASER® / ILCA®

EX2005	Clew strap
EX2007	Clew hook
EX2008	Clew hook with 20 mm ball bearing block
EX2010	Clew sleeve with 16 mm Harken airblock*
EX2176	Cleat plate for cunningham and outhaul*
EX2178	Block plate with 20 mm ball bearing blocks*
EX2179	Block plate only*
EX2180	20 mm ball bearing block*
EX2181	20 mm ball bearing fork block*
EX2183	Small composite cam cleat*
EX2184	Fairlead for small composite cam cleat*
EX2185	Block plate with 29 mm Harken blocks*
EX2186	29 mm Harken block with bolt*

The ultimate clew tie down system. One end of the strap has the loop velcro on both sides. It then sandwiches between the hook velcro, providing so much contact area that the strap will not slip. Can be used with a clew hook, with or without 20 mm ball bearing block, to create a quick, easy and reliable clew system.

The stainless steel sleeve will be fixed to the boom and does not have to be detached after sailing. The quickest system for fixing the clew.

Upgrade the builders supplied control line blocks to 29 mm Harken blocks. The 29 mm Harken blocks can be bolted on the existing block plate and provide less friction for easier control.

FOIL BAG FOR LASER® / ILCA®

EX2050	Foil bag
--------	----------

Heavily padded foil bag. Separate compartments for rudder, daggerboard, tiller and a large compartment for accessories. With carrying handle and adjustable and detachable strap.

EX2050

COVERS FOR LASER® / ILCA®

EX2040	Breathable top cover
--------	----------------------

EX2041	Economy top cover
--------	-------------------

EX2044	Economy bottom cover
--------	----------------------

Our breathable cover is made of top quality, long-life Moistureguard 2000, a heavy duty 900D breathable polyester with a polyurethane membrane. Moistureguard reduces the risk of blisters. The economy top cover is made of strong and flexible solution dyed PVC coated polyester and the economy bottom cover is made of 600D PU coated polyester. Both top covers are slightly tented so that spars can be stored inside the boat and have wide skirts around the edge of the hull to provide good protection. The bottom cover webbing loops are installed to be able to pull the cover tight around the hull during transport.

EX2040

EX2041

EX2044

BAGS FOR LASER® / ILCA®

EX2032	Sail bag

WINDESIGN DINGHY TROLLEY COLLECTION

The lightweight dinghy trolleys from Windesign are designed to be the most functional available. With 3 different angle connectors and different middle sections we can create a trolley for almost every dinghy. Spring lock quick release system on all parts allows the trolleys to be disassembled in matter of seconds for storage and travel. The frame has welded joints and is anodized to prevent corrosion. These trolleys are supplied with 8 mm stainless steel push button wheel locks which are mounted inside the stainless steel axles. Supplied with the large Durastar-lite puncture proof wheels.

EX2014 Trolley / dolly for Laser® Bug

The hull rests on 2 side supports and a special Bug front support which locks under the gunwale. This provides a stable support for the Bug. Side supports can be disassembled for easy transport.

EX2015 Trolley / dolly for Laser® / ILCA®

The bow locks into a horseshoe shaped padded support and the hull rests on 2 side supports which lock under the gunwale. This provides a stable support for the Laser® / ILCA®. It comes with a firm rubber V-support (EX2017) which protects and stabilizes the hull when launching.

EX2016 Trolley / dolly for Laser® / ILCA® with 2-piece mid section

Same design as our regular Laser® / ILCA® trolley (EX2015), but with 2-piece spring lock quick release middle section which allows you to disassemble the trolley in matter of seconds for storage and travel.

EX5010 Trolley / dolly for Laser® Pico

EX5011 Trolley / dolly for RS Feva

EX5030 Trolley / dolly for Topper Topaz

EX5031 Trolley / dolly for Fusion

EX5033 Trolley / dolly for Cascais

EX5036 Trolley / dolly for Europe

EX5037 Trolley / dolly for Zoom

Lightweight aluminium dinghy trolleys. Spring locking quick release of all parts allows the trolley to be disassembled in a matter of seconds for storage and travel. The frame has welded joints and is anodized to prevent corrosion. These trolleys are supplied with 8 mm stainless steel push button wheel locks which are mounted inside the stainless steel axles. Supplied with the large Durastar-lite puncture proof wheels, V-supports, side supports and heavy duty 90 mm wide polyester webbing belt.

EX5040 Trolley / dolly for Topper

The bow locks into a angle shaped padded support and the hull rests between 2 side supports. This provides a stable support for the Topper hull.

EX2015P Complete side support

Side support for the Laser® / ILCA® trolley / dolly, can be used to replace old design supports.

EX2017 Trolley / dolly V-support

V-support which can be used on all trolleys. Makes it easy to launch the boat without damaging the hull. Supplied with mounting hardware. Can be used on existing trolleys.

EX2015P

EX2017

PROTECTION PACK FOR LASER® / ILCA®

EX2001 Protection pack for Laser® / ILCA®

Complete protection pack for maststep, mast, tiller, outhaul and daggerboard. Contains two disks for the maststep, two strips for the maststep and mast deck, two strips for snug fit of the upper mast, one strip for the deck abrasion from the tiller, one strip to prevent the outhaul and five squares for the daggerboard.

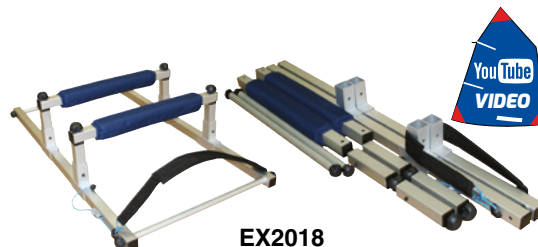

EX2001

HIKING BENCH FOR LASER® / ILCA®

EX2018 Dinghy hiking bench

Fully detachable hiking bench. With adjustable hiking strap and two padded supports. Perfect for that extra training session. Convenient portable and quick to assemble due to the quick link detachable joint design. Super strong and weighs just 5.7 kg.

LOW FRICTION RINGS

EX3001	19 mm low friction ring
EX3002	25 mm low friction ring
EX3003	38 mm low friction ring

The lightweight alternative to a block, with no moving parts this is an extremely low maintenance item. Hard anodized with PTFE coating to provide the smoothest wear resistant surface possible. These low friction rings can be used in various applications: EX3001 as lead ring for control lines, EX3002 as Optimist halyard block and EX3003 as Optimist mainsheet block.

MODEL	D1	D2	Ø	T	WEIGHT
Ø19	19	7	4,5	8,5	3,5 g
Ø25	25	9	6	10	6 g
Ø38	38	15	9	13	15,5

WINDESIGN ACCESSORIES

EX3005	6 mm stopper ball
--------	-------------------

Black stopper ball, suitable for lines up to 6 mm. Can be used in various applications. Outside diameter 22 mm.

EX3008	Clinometer
--------	------------

Affordable black plastic clinometer with self-adhesive backing for easy fitting. An accurate ball gauge shows the boat angle up to 45 degrees. Size: 90 x 40 mm.

EX3010	Digital regatta timer
--------	-----------------------

EX3012	Timer mounting bracket
--------	------------------------

A water resistant timer with rigid casting and 3M velcro fixing. Quick set / reset and synchronize function. Beeps every 10 seconds during the last minute. Size: 90 x 76 x 23 mm

EX1447S	Load straps 5 meter. Set of two
---------	---------------------------------

EX1447	Load straps 6 meter. Set of two
--------	---------------------------------

Set of two load straps with protection behind the buckle. Cam-action buckle and high quality 25 mm wide PP webbing. The 5 meter strap is ideal for securing Optimists and the 6 meter strap is suitable for most other dinghies.

EX4200	Buoyancy bag
--------	--------------

Specially designed for Moth, but can be used for several other classes. These bags are made of polyurethane coated nylon and are about half the weight and significantly stronger than bags made of PVC or PVC coated nylon. Size: 106 x 20 cm inflated, 110 x 25 cm deflated.

EX4250	Padded hiking strap, 120 cm
--------	-----------------------------

Wide 10 cm padded hiking strap, 120 cm long with a loop on the aft and open on the front.

EX2600	Mast float
--------	------------

This mast float significantly reduces the risk of inversion. A very neat design of 2 inflatable tubes connected with a piece of sailcloth. The sailcloth can be folded around the luff rope and hoisted with the sail. Please note this product is meant for small dinghies only and does not guarantee 100% protection against inversion. Using it is for own responsibility. Length 80 cm. 8 liter.

LOW FRICTION RINGS, ACCESSORIES & PARTS FOR 420

COVERS FOR 420

EX2046	420 top cover
A heavy duty, long lasting 1680D polyester / PVC cover. 100% water resistant. 3 straps with adjustable buckles go underneath the hull and hold the cover tight.	
EX2048	420 bottom cover
A strong, flexible, 600D polyester PU coated cover.	
EX3025	Padded 420 mast cover
EX3026	Padded 420 boom cover
EX3027	Padded 420 rudder cover
EX3028	Padded 420 daggerboard cover

Fully padded 420 covers. The mast cover is tapered towards the top with reinforced openings for hounds and spreaders. Velcro closure runs from hounds to heel for quick and easy packing. With red safety flag. 600D polyester PVC with 5 mm closed cell foam and tarpaulin lining. The boom cover has a 120 cm long zip for easy access.

420 TRAINING SAILS AND ACCESSORIES

EX3035	420 Jib

MAGNETIC DINGHY / OPTIMIST SETS

Ideal for accurately depicting races, enforcing and teaching the racing rules, as well as for protests. They help coaches to explain manoeuvres, trim, wind and tactics. For sailing clubs, committees, sailors and coaches. Available in two different shapes Dinghy and Optimist, the Dinghy boat length is 10 cm and the Optimist boats are just 5 cm long. All three packs come in a handy zip lock bag.

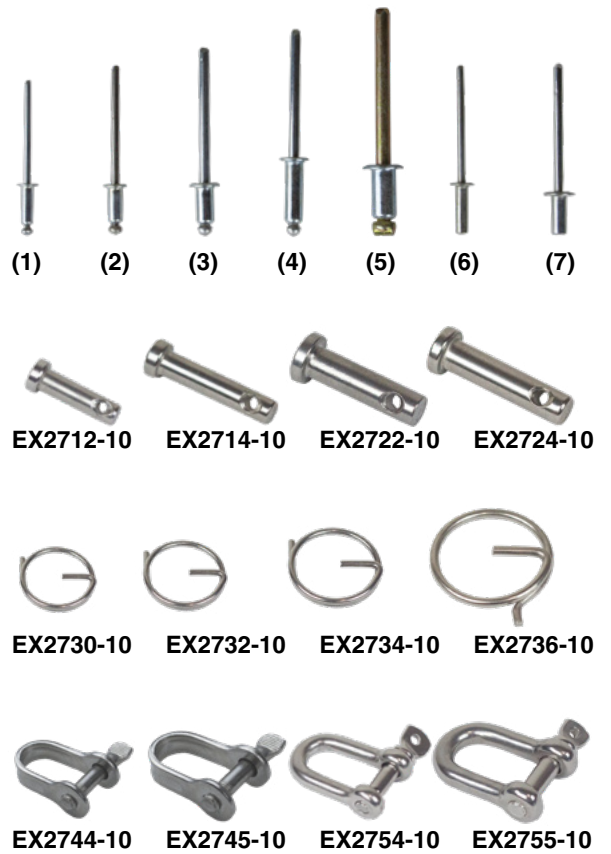

- The full Dinghy set contains 3 numbered yellow sailboats, 3 numbered red sailboats, 3 numbered green sailboats, 3 black coach boats, one wind arrow, one current arrow and four numbered racing marks.
- The travel Dinghy set contains 1 yellow sailboat, 1 red sailboat, 1 green sailboat, 1 black coach boat, one wind arrow, one current arrow and four numbered racing marks.
- The Optimist travel set contains 1 yellow Optimist, 1 red Optimist, 1 green Optimist, 1 black coach boat, one wind arrow, one current arrow and four numbered racing marks.
- The magnetic whiteboard is 25 x 35 cm and supplied with a shockcord hand strap to make your coaching session even easier. You can use your whiteboard marker (not included) for additional illustrations. Comes in a splashproof zip lock bag.

EX2780	Shackle key		

Monel rivets with mandrel made of galvanized steel. Monel is a nickel-copper alloy with high tensile strength, which is very resistant to atmospheric corrosion and sea water. We supply open and closed type Monel rivets. Closed rivets provide an airtight seal.

Suitable to screw pin and slotted head shackles. 8, 10, 13 mm open end spanner and bottle opener. The shackle key is 10 cm long.

* All pins, rings, shackles and rivets are supplied in a blister packaging.

COACH GEAR

EX2589	Water bottle, 750 ml
EX2665	Waterproof notebook, 10 x 15 cm, 100 squared pages
EX2655	Training and regatta mark 180 x 18 cm
EX2655B	Replacement bladder for training mark

This highly visible yellow training mark is designed to last long. The mark consists of 3 separate parts: a solid outer, an inflatable inner bladder and a ballast bag. The mark can be used anchored or as drifting mark. At the bottom you will find a big handle where you can easily fasten the mooring line.

EX2660 Pyramid racing mark 140 x 140 x 120 cm
Constructed from high quality 0,9 mm thick durable PVC coated polyester tarpaulin. The bright color and the size of the mark will help sailors see the mark from a great distance. At the bottom you will find 4 stainless steel D-rings to attach a mooring line. The three sides without artwork can be used for advertising or sponsoring.

CLOTHING

MIRA SERIES

TECHNICAL SPECS

Our MIRA SERIES are designed with the highest quality fabrics to provide high end waterproofness, durability and flexibility. Comfortable dinghy sailing gear for junior and adult.

NEO-SKIN

NEO-SKIN fabric is a 3-layer combination of a nylon water repellent outer, a lightweight stretch mid and a soft nylon inside layer.

MESH#LINING

Mesh lining is used in our spraytop to keep you warm and comfortable. Developed to avoid sticky sweat feelings and to make changing clothes easier. Keeps you dry and ready to race!

POLAR

POLAR is a soft fleece fabric which offers the best comfort and warmth to your skin.

W/P MVP

A thin, flexible extremely breathable (MVP 10.000 g/m²/24hr) and waterproof (W/P 10.000 mm) 75D Twill Polyester Pongee + PU coated fabric which makes our spraytop and jacket the ultimate in all weather conditions.

TERRY

The quick dry, soft and hairy TERRY fabric offers comfort and warmth to your skin. This fabric has many protruding loops of thread which can absorb large amounts of water.

UV50+ SKIN

Protect yourself against the sun with our UV50+SKIN products. The UV50+ fabric provides maximum sun protection.

WFLEX

W-FLEX stands for our neoprene flexibility. The combination of high quality neoprene and the production technique offers the flexibility that every sailor is looking for.

MIRA COMFORT

Our Comfort Hiking Trapeze Harness provides full back support, has a PVC coated 600D polyester shell and heavy duty rear. Unique in adjustability and comfort.

RIPSTOP

Our buoyancy aid features a lightweight ripstop outer layer. The thicker thread which is used in the ripstop weaving technique ensures more durability.

STRETCH-SKIN

Our gloves features a comfortable stretch-skin fabric. This stretch-skin fabric gives you the flexibility and comfort that you need.
